Modify

Which Filter - This drop down menu allows the user to select the filter that they wish to modify.

Filter Name - This field allows the user to specify a new name for the filter that they are modifying.

All Tags & Added Tags - By moving the Tags from the All Tags field to the Added Tags field, using the arrow buttons in between, the user indicates which Tags should be included in the filter.

All Subjects & Added Subjects - By moving the Subjects from the All Subjects field to the Added Subjects field, using the arrow buttons in between, the user indicates which Subjects should be included in the filter.

Modify Filter - Once the Added Tags and Added Subjects fields are filled appropriately clicking the Modify Filter button will change the filter.

Remove

Which Filter - This drop down menu allows the user to select the filter that they wish to remove.

Remove Filter - Clicking the Remove Filter button will remove the filter selected in the Which Filter drop down menu.
