

Basics

The tutorials listed below will give short explanations on how to do some of the basic functions of Report3D.

- [How to load an existing report](#)
- [How to create a Filter](#)
- [How to perform a Query](#)
- How to retrieve Metric Data
- [How to export a report as a pdf](#)

Creating Standard Reports

The tutorials below give step-by-step instructions for creating standardized report pages. These can be used as is, or can be altered for the specific needs of a lab or clinic.

IORgait Foot

- How to create a Dynamic Planar Angles Page
- How to create a Static Foot Rotation Summary
