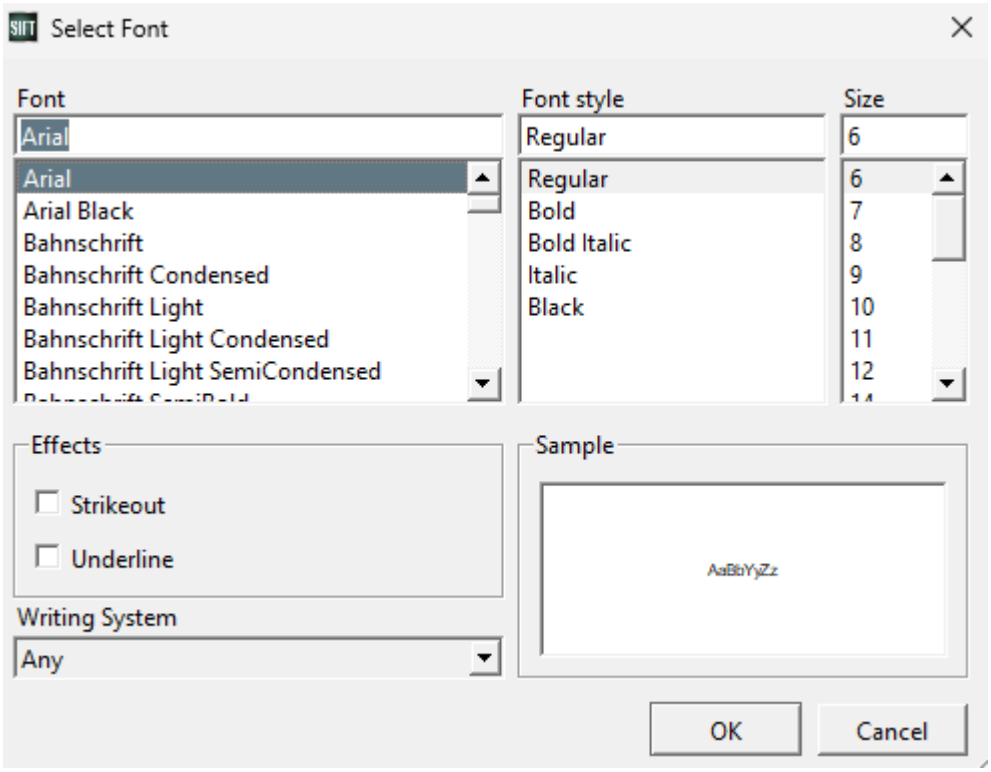
Select Font Dialog

The Select Font Dialog is a font style editor for plot titles and axes throughout Sift. It can be accessed by right-clicking on a graph,



- **Font**: All selection box containing all available fonts
- **Font Style**: All available font styles, **Bold**, *italic* etc.
- **Size**: All available text sizes ranging from 6 to 72
- **Effects**: Contains two check-boxes to enable strike through (~~Example~~) and underline (Example) or both (~~Example~~).
- **Writing System**: A selection of different character sets.
- **Sample**: An example box previewing what the selected font will look like.
- **OK**: Close the dialog and apply all font choices
- **Cancel**: Close the dialog and do not apply all font choices
